

GET WHAT YOU EXPECT.

Kallion Farms has always paid attention to detail for trait selection to provide the best possible BEEF product to our clientele. Our cattle are retained in our breeding program based on structural correctness, fertility, fleshing ability and genetic markers for BEEF carcass quality. Superior maternal females from Kallion Farms will provide you with the building blocks to produce a higher quality commercial BEEF animal or produce your own BEEF based purebred Brahmans.

We know what the consumer expects. They expect a quality product that they can rely on, time and time again. This is why we test our cattle on so many levels. It is one thing to say you have a quality product, but it is another to be able to prove it.

200 HEIFERS AVAILABLE FOR SALE BY PRIVATE TREATY.
